A Touch of Topological Quantum Computation in Haskell

Philip Zucker

A

Quantum Mechanics in 5 Minutes

most of normalization matrix evolution R+ vs C probability is "parallel" too exponential sized double slit

Probability	Quantum
$[0, 1]$	$\mathbb{C}$
$\sum p = 1$	$\sum \lvert a \rvert^2 = 1$
p_i	ψ_i
d^n	d^n
blase	magic

Free Vectors

Styles of vector np.array() List Vec n Functor Vectors Map [(a,b)] ['=÷–]

The Linear Monad

Sorry. I HAD TO Is Pipework good enough? | Tables | Are | Cool |
| ———————- |:———————-:| ——:| | col 3 is | right-aligned | $1600 | |
col 2 is | centered | $12 | | zebra stripes | are neat | $1 |
